#### **“IINO ARTWORKS TOUR – Drone Tour through IINO Building and IINO Hall”**

IINO KAIUN KAISHA LTD., is proud to announce to have released a new video today on its Official YouTube Account, IINO Channel.

Artworks are displayed at our flagship IINO Building and blend with the design of architecture. Not only does the building provide office space, it plays a roll as a center of arts and culture with IINO Hall, where various cultural events had been held such as Rakugo performance, Japanese traditional entertainment, and classical music concerts.

The video introduces artworks at IINO Building and IINO Hall with some shots by drones.
