IINO Kaiun Kaisha, Ltd.

**Introduction of "Carbon Neutral City Gas"
and joining "Carbon Neutral LNG Buyers Alliance"**

IINO Kaiun Kaisha, Ltd. (IINO) hereby announces that we have introduced "Carbon Neutral City Gas (CN city gas)" *1 from Tokyo Gas Co., Ltd. at Shiodome Shibarikyu Building, which we own, for the purpose of reducing greenhouse gas emissions and have joined the "Carbon Neutral LNG Buyers Alliance" *2. The greenhouse gas emissions generated in the LNG value chain (from natural gas extraction to combustion) is to be offset in the CN city gas by the CO₂ credits held by the natural gas supplier. We will use CN city Gas in place of all the city gas used in the building. IINO have set goals to reduce CO₂ and other greenhouse gas emissions by 50% (from 2013 levels) in the real estate business and 40% (from 2008 levels) in the shipping business by 2030. We will continue to invest in assets and energy that contribute to reducing our environmental impact, and we will continue to address climate change and other sustainability issues.

< Summary of Shiodome Shibarikyu Building >

Location: 1-2-3 Kaigan, Minato-ku, Tokyo

Floor area: 35,015.25 m²

Floors: 21 floors aboveground, 3 basement levels,
2 penthouse floors

Completion: July 2006

This building is co-owned with Chuo-Nittochi Co., Ltd.
Ltd. Building Co.

*1 Carbon Neutral City Gas is made from liquefied natural gas (carbon-neutral LNG), which offsets greenhouse gas generated in the processes, from the extraction to the burning of natural gas, with carbon credits (carbon offset) and is deemed that no CO₂ is generated on a global scale.

*2 Carbon Neutral LNG Buyers Alliance was established through the concerted efforts of Tokyo Gas, which procures and supplies CN city gas, and the companies, which purchase CN city gas, with the aim of spreading the use of CN city gas and increasing its utility value toward the achievement of a sustainable society.
