IINO Kaiun Kaisha, Ltd.

IINO Selected as a Constituent of " FTSE Blossom Japan Index"

IINO Kaiun Kaisha, Ltd. (IINO) is pleased to announce that in recognition of our sustainability efforts, IINO has been selected for the first time as a constituent of the "FTSE Blossom Japan Index (*)." The index selects Japanese companies that demonstrate strong Environmental, Social and Governance (ESG) initiatives.

FTSE Blossom Japan Index is one of the indices developed by FTSE Russell, a subsidiary of London Stock Exchange Group and consists of Japanese companies that meet certain ESG-related assessment criteria. The index is used by investors around the world as one of the leading indices for ESG investment, with the Japan's Government Pension Fund Investment Fund (GPIF), the world's largest public pension fund management organization, adopting it as an ESG index.

IINO is also a constituent of the "FTSE Blossom Japan Sector Relative Index" developed by FTSE Russell. For more information, please refer to the following news release.

<IINO's Sustainability Initiatives>

In the mid-term management plan released in May, 2020, IINO has adopted ESG management policy, which aims to enhance corporate value by tackling ESG issues head-on. To realize ESG management, we have established a Sustainability Promotion Department and strengthened governance, and we continue to work on various ESG issues, for example by building methanol and LPG dual-fuel vessels that can reduce greenhouse gas emissions. IINO believes that these efforts are linked to external recognition, such as being included in the ESG Indices.

IINO will continue to accelerate these initiatives with the aim of realizing a sustainable society and enhancing corporate value.
