IINO Kaiun Kaisha, Ltd.

### **IINO received CDP "A- (A minus)" grade**

IINO Kaiun Kaisha, Ltd. (IINO) is pleased to announce that on December 13, 2022, we received a Leadership Level "A minus" grade in the Climate Change Questionnaire from CDP (Head Office: London, UK) \*, an international environmental non-profit organization.

An "A minus" grade is the second highest rating, after the highest "A" grade and indicates our outstanding efforts and information disclosure with regard to climate change.

CDP is an authoritative international organization in the environmental field that conducts climate change-related surveys of global companies and others on greenhouse gas emissions and the risks and opportunities posed by climate change, and evaluates and publishes the results based on the answer of surveys.

In our mid-term management plan “Be Unique and Innovative.: The Next Stage -Towards 2030”, IINO has positioned addressing climate change as one of our materiality, and has established targets for reducing greenhouse gas emissions, and is taking concrete measures to achieve these targets. We believe that the "A minus" grade we received in the CDP Climate Change Questionnaire is a recognition of the leadership level of our group's efforts to reduce greenhouse gas emissions and achieve a decarbonized society.

IINO will continue to contribute to the realization of a sustainable society through our efforts to reduce and prevent emissions of greenhouse gases and air pollutants, conserve resources and energy, reduce waste, effectively use water resources, and recycle.

#### **\*About CDP**

Founded in the UK in 2000. CDP runs the global disclosure system for disclosing environmental information collected from companies and others. The answer of "Climate Change Questionnaire" was rated on an eight-point scale from "A" to "D minus" from highest to lowest. The CDP's scoring is used around the world as a leading indicator for sustainable investment.
